Experience Summary

Over 5+ years of experience as a software developer including about with experience cutting across backend frontend and mobile spaces, giving me a holistic knowledge of the techspace from all angles of software development. My experience encompasses integrating with various databases, Client-Server applications, as well as API creation and usage.

- Experience with python frameworks such as Django, Django-Rest-Framework (DRF), Graphene, Flask, Tensorflow.
- Experience with front end web services using React (Javascript and Typescript) and Node.js.
- Extensive experience in Dart(Flutter) for mobile applications.
- Experienced with the Software Development Life Cycle (SDLC) process, which includes designing and implementing the software, debugging, fixing, and maintaining the software.
- Experience with Visual Studio Code including development, debugging, profiling, optimizing, and build processes in Object-Oriented Design Principles (OOD & OOP).
- Experience with using docker based applications and other containerized applications.
- Developed applications while being part of both Engineering and Marketing decisions, which helped me learn more and acquire knowledge about basic business processes.

Education

UNIVERSITY OF LONDON (online) [link](#)

Course Specialization (Computer Science) November 2021 – Feb 2022

UNIVERSITY OF NIGERIA (full-time)

Bachelor of Engineering -Mechanical (4.32/5), October 2015 – July 2021

STANFORD UNIVERSITY(online) [link](#)

Certification Course (Neural Networks and Deep Learning) Dec 2019 - March 2020

Professional Experience

FORREST AND FINCH

Software developer, February 2022 – date

- Created applications implementing Remote Procedure Calls for secure transactions on the server.
- Launched docker based backend server (Nakama) for front end request.

SWITCH

Chief Technical Officer, December 2020 – July 2021

- Worked in a team to develop software to integrate with electronic meter using a django rest backend service

- Collaborate with business analysts, users, and QA team to ensure market quality and provide user requirements

SISAKEST GROUP

Programming Tutor, March 2020 – August 2020

- Created a curriculum to facilitate the learning of Programming by Junior developers.
- Mentored and trained 20+ young developers in Nigeria on the core/ basic concepts of software and hardware development.

FIVERR (Remote)

Mobile Engineer, September 2020 - date

Projects

ECOMMERCE APP - [link](#)

An Ecommerce website that uses django rest framework for serving a React (Typescript) frontend - May 2022

MOVIE REVIEW APP - [link](#)

A web application for users to write reviews on movies that are available on the site and these comments are visible to all the users of the website - April 2022

Awards

Nivlek Awards - [link](#)

Academic Excellence and leadership Award, June 2021

Christok Coding Competitions - [link](#)

Winner programming competition, January 24 2020

Additional Skills

- **Programming:** Dart, Javascript, Typescript, CSS, Sass
- **Concepts:** Design Implementation, Clean Architecture, and Test-Driven Development
- **Database:** SQLite/ Firebase / MongoDB / Airtable API / Redis / Postgress
