Experience Summary

Over 5+ years of experience as a software developer including about 3 years as a Mobile Engineer in designing & developing beautiful User Interfaces for applications, integrating with various databases, Client-Server applications, and as a Flutter developer.

- Experienced with the Software Development Life Cycle (SDLC) process, which includes designing and implementing the software, debugging, fixing, and maintaining the software.
- Extensive experience in Flutter and Native Android application design and implementation using Dart and Java.
- Experience with Flutter, Android Studio, and Visual Studio Code including development, debugging, profiling, optimizing, and build processes in Object-Oriented Design Principles (OOD & OOP).
- Experience with integrating websockets and with using docker based applications on mobile backends.
- Proficient skills in Test Driven Development (TDD), Design Driven Development (DDD), and Uncle Bob's Clean Architecture.
- Expert-level skills in developing custom UI components for Flutter Applications.
- Developed applications while being part of both Engineering and Marketing decisions, which helped me learn more and acquire knowledge about basic business processes.

Education

UNIVERSITY OF LONDON (online) [link](#)

Course Specialization (Computer Science) November 2021 – Feb 2022

UNIVERSITY OF NIGERIA (full-time)

Bachelor of Engineering -Mechanical (4.32/5), October 2015 – July 2021

STANFORD UNIVERSITY(online) [link](#)

Certification Course (Neural Networks and Deep Learning) Dec 2019 - March 2020

Professional Experience

FORREST AND FINCH

Mobile developer, February 2022 – date

- Worked in a team to develop mobile app integrating services of
- Launched docker based backend server (Nakama) for mobile applicatoion.

SWITCH

Chief Technical Officer, December 2020 – July 2021

- Worked in a team to develop software to integrate with electronic meter

- Collaborate with business analysts, users, and QA team to ensure market quality and provide implementations/bug fixes.

SISAKEST GROUP

Programming Tutor, March 2020 – August 2020

- Created a curriculum to facilitate the learning of Programming by Junior developers.
- Mentored and trained 20+ young developers in Nigeria on the core/ basic concepts of software and hardware development.

FIVERR (Remote)

Mobile Engineer, September 2020 - date

Projects

INVOICE, RECEIPT AND MEMO (active) - [link](#)

A mobile application for Generating Invoice, Receipts and memos for small businesses with offline app - January 2022

SOLAR CONSULT (active) - [link](#)

A mobile application for Solar Installation, Sizing and recommendation - December 2021

NIGERIAN CUISINE (disabled) - [link](#)

An mobile application written in Java for learning nigerian recipes - November 2020

Awards

Nivlek Awards - [link](#)

Academic Excellence and leadership Award, June 2021

Christok Coding Competitions - [link](#)

Winner programming competition, January 24 2020

Additional Skills

- **Programming:** Dart, Python, Java
- **Concepts:** Design Implementation, Clean Architecture, and Test-Driven Development
- **Database:** SQLite/ Firebase / MongoDB / Airtable API / Redis
